Dear Air Board,

I write this letter today to show my support of keeping the Potomac River Generating Station open. I recently became aware of such a proposal and I can appreciate all the benefits this stack merge project has to offer. I understand that it will save jobs, allow the plant to reduce its dangerous emissions, and preserve the current energy generation. I want to be a part of such a great project. Best of all, it is my understanding that Mirant is paying for the project in its entirety, so I don't have to worry about new taxes.

I am a 57 year old housewife who has spent the last 25 years in Alexandria. I am married and both my husband and I support this proposal. I am active in my community serving as 1st VP of the Ft. Belvoir Officers' Wives Club. I am happy to write this letter, but wish I could do more.

When making the final decision, please take this letter and many others like it into consideration. Please know that this letter serves as my vote of confidence in this project. I appreciate the time you have taken to read my letter and appreciate your continued service in our State. Thanks in advance and have a great day.

Best,

Lois Drury
